

STABLE VIEW PARTNERSHIPS - ATTWOOD EQUESTRIAN SURFACES

Attwood Equestrian Surfaces was founded in 1992 by Nick Attwood. The company has been a longtime sponsor of Stable View. Melanie Bartenstein, Operations Manager, kindly shared some information about Attwood and Nick.

Melanie shared, "Nick worked building tracks before he opened his own surfaces company. He was a problem solver and wanted to combine his knowledge of Science with his love of horses to create safe and high performance surfaces." Nick is

the President of the company. Melanie said, "Nick is a chemist. He works in the lab doing R&D, he does sales, and is the leader of the company." Looking ahead to the future, the goal is to expand the products and services offered. Currently in addition to developing new and/or improved footing, Attwood is selling Kick Walls, Solariums, and Blanket Dryers.

Melanie also shared, "Nick loves Stable View! And supporting Barry and Cyndy. They have a long-standing relationship and have grown together. Both being from England, Barry and Nick have shared interests and backgrounds. Nick is happy to see Stable View excel and expand and succeed. WE appreciate the support of Stable View and the dedication to safety and wellness for everyone."

As a fun end to the spotlight: Nick and Barry follow the same soccer team, West Bromwich Albion. Nick shared that he needs to learn from Barry to take losses with more grace.
