

## **STABLE VIEW LETTER FROM BARRY:**

**It's been a very busy time at Stable View.**

**A new Arena, the Healing Arts Center, an additional Equipment Shed, the Widening of the Short Connector have all focused a lot of our resources on Infrastructure.**

**However, we've also spent a lot of time planning for this year's HJ Shows, April 4\*, and the Intercollegiate and Interscholastic Championships in May.**

**If you add into the mix the number of new Sponsors we're dealing with, you'll have some idea of the amount of time we're allocating to new projects.**

**As you know, it's not intended for Stable View to be big, rather, we believe that there is a niche for friendly and good value medium sized facilities to create additional riders and increase their market share.**

**No business can stand still - there's a need for ongoing investment.....Stable View is no different. It's working. Please see below for 2022, 2023 and 2024 February Sunday Eventing Academy Entries.**

**We're proud to announce that Stable View's June HT has been selected as the send-off venue for the US Olympic Team for the Paris Olympics. VIP packages will be announced ASAP.**

**For information, you will find our [Instagram](#) and [Facebook](#) accounts.**
