

## **BARRY'S STABLE VIEW UPDATES:**

**At the time of writing, it would seem that Oktoberfest entries will again be well over 300.**

**Oktoberfest has become Stable View's signature Eventing showpiece with significant support from both upper and lower-level riders. This will be Helen West's first and possibly Mark Phillips last Oktoberfest. We'd again like to thank Mark for his support and guidance over the past fourteen years.**

**Oktoberfest is followed - a week later - by the TIP Championships. It seems likely that there will be record entries.**

**October could also be the month when the Healing Arts Studio at Stable View is completed. Set amongst trees and with little sound pollution, this state-of-the-art facility will take its place within Stable View's non-equestrian facilities. More information will become available as the formal opening gets closer.**

**Stable View's 2024 honey has arrived. This is now available for purchase at [Stableview.shop](https://Stableview.shop).**

**Harrell's have just "distributed" their last application of fertilizer for the year. This has been mixed with a pre-emergent. We've had an unwelcome outbreak of broad-leaf weeds and Bahia grass this**

**year.**

**Don't forget Aiken Trailblazer's 5k, 10k, and half marathon at Stable View on Saturday, October 26th.**

**Lunch is now available at The Bistro at Stable View. Come and see us at the Pavilion during the week and at most event weekends. Use [stableview.shop](https://stableview.shop) for the menu and ordering.**

**There's a lot going on at Stable View.**

**See you soon!**
