

BARRY'S STABLE VIEW LETTER :

There's so much going on at Stable View!

We recently hosted our first Combined Driving Event. While entries were small, we put our toe in the water, we learned a lot and the event will be repeated in the spring.

The Bistro is another experiment. As you know, Stable View is opportunistic and regularly experiments - this is another example of an experiment that's working.

Healing Arts are going to become a significant component in our lives at Stable View. While this remains a watch this space, completion - this month - will enable us to regularly plan a number of modalities. Monday and Thursday Yoga will be transferred from the Pavilion to the Studio @ Stable View.

The Eventing Academy has record entries for the time of year - thanks for your support.

As we go into the Holidays, from all of us at Stable View, we appreciate your involvement and look forward to seeing you soon.
