

LOOKING AHEAD TO THE NEW YEAR BY BARRY:

While the first of January is not really a date to plan around, in the spirit of the Season, I thought it would be good to list some of our plans for 2025.

The Bistro at Stable View is becoming more popular day by day. It started quietly a few months ago and it's now open daily for breakfast and lunch. Volunteer and Officials food is now prepared in-house. The menu changes with the Season and is available at most shows.

The Healing Arts Studio building is now complete. We are working on some finishing touches before opening it to the public. Transfer of the Yoga Program is planned along with other modalities. This state-of-the-art studio will become an important part of the Stable View experience.

The Stable View Grass Management Program will get a further upgrade in 2025. Over the past few years, we've noticed the lower EA field has come out of winter dormancy much slower than the rest of the property. There are fertilizers that can address situations of this type and as a result, we're changing our fertilizer application. We going to continue with our Aeration and Verti Drain program. While

we've adopted some unconventional approaches to our grass management, we believe that the outcome will lead to a softer ride, better root development, and a quicker recovery of the grass after rain/irrigation.

From all of us at Stable View, we'd like to wish you Happy Holidays and a successful New Year!
