

BARRY'S LETTER:

Over the last few weeks, we've been considering the possibility of purchasing some Tiny Homes. Our idea is to add to the choices that we offer to visitors so that we continue to develop our portfolio of Accommodations.

After a significant amount of research, we decided to go with a customized design from Green River Log Cabins.

The Stable View Log Cabins will sleep six, have a small enclosed outside area and will be positioned in the tree line opposite Gate 3 and Cross Country Warm Up. They'll be small but will do the job of providing six adults with relatively low-cost accommodations.

One or two of the cabins will offer the Stable View Platinum Collection. The Stable View Platinum Collection will include premium toiletries and other personal products. Our intention is to develop this area of business via StableView.shop

In addition to Equestrians, it's Stable View's intention to use the cabins for areas of the business including the Aiken Trail Club @ Stable View, Healing Arts, Weddings, and Corporate Retreats.

We'll keep you up to date with progress.
